

Pablo III - Show Me How You Move Lyrics

I'm working all day long to just get by
I've tried too many things to say good bye
I'm gonna catch the next flight in my mind
That's all I have right now to be satisfied

Sunlight shines, the weekend nights
No more bad vibes, when the stars align
Once again, you are stuck in my mind

Show me how you move babe, all night
Dancing in the moonlight, until the sunrise
Show me how you move babe, all night
We've got such a delight, love is just so bright

Show me show me how you move how you move
Show me show me how you move how you move
Show me show me how you move how you move
Show me show me how you move how you move

You put my mind at ease when you appear
Your stunning body blinds me I'm not clear
I miss you when you're gone out of my thoughts
But I know you'll be back anytime I want

Sunlight shines, the weekend nights
No more bad vibes, when the stars align
Once again, you are stuck in my mind

Show me how you move babe, all night
Dancing in the moonlight, until the sunrise
Show me how you move babe, all night
We've got such a delight, love is just so bright

Show me show me

You are in my thoughts
Maybe somewhere you exist
Please don't leave me now
Just one more day I need you here

Show me how you move babe, all night
Dancing in the moonlight, until the sunrise
Show me how you move babe, all night
We've got such a delight, love is just so bright

Show me show me how you move how you move
Show me show me how you move how you move
Show me show me how you move how you move
Show me show me how you move how you move
